PROFILE

Front-end Developer with experience in building interactive user interfaces and optimizing web performance. Proficient in React.js, Next.js, and Tailwind CSS for creating fast and scalable applications. Strong collaboration skills with backend teams to solve UI/UX challenges and improve user experience. Optimized website performance.

PROJECT

MCI Mobile-First Clone

Tech: Next.js, React, Tailwind CSS, TypeScript, Redux

Built a mobile-first clone of MCI's core flows using reusable components and structured state management.

Optimized performance with responsive layouts, lazy loading, code splitting, and React Query caching for smoother UX.

Resume Builder (SPA)

Tech: React, Tailwind CSS, TypeScript, Zustand, React Query

Implemented a dynamic resume builder with real-time preview, export, modular form schemas, React Hook Form inputs, centralized state with Zustand, and API integration.

Enhanced UX with Framer Motion micro-interactions and clsx-based styling, enabling faster user iteration and maintainable, scalable architecture.

Portfolio Website

Tech: Next.js, Tailwind CSS, TypeScript, React Query, Framer Motion

Developed a personal, portfolio-focused website with a fully responsive, component-driven architecture using Next.js. Integrated Zustand for state management and React Query for efficient data fetching and caching. Enhanced interactivity with Framer Motion animations and optimized layouts using Tailwind CSS for mobile-first, scalable design.

WORK EXPERIENCE

Teaching Assistant at Danesh & Fanavari Bamdad Co.

Collaborated in building responsive and scalable user interfaces using HTML, CSS, JavaScript, TypeScript, React, and Next.js.

Assisted students during hands-on coding sessions, code reviews, and debugging processes.

Worked with modern frontend workflows and improved UI/UX performance across training projects.
